

Make and Use Visual Choice Cards

- 1. Print each page on heavy cardstock (or print and laminate)**
- 2. Cut apart the choice cards. Leave the storage page whole.**
- 3. Add a Velcro dot to each circle on the storage page. Line up and then add the opposite Velcro dot to each matching choice card.**
- 4. Place the storage pages in a 3-ring binder.**
- 5. Now you have an easy way to provide visual choices plus an easy way to store them!**
